PEG Gallon Prep + Bisacodyl

Colonoscopy prep · Kurt Vernon, MD, PA

Buy at the Pharmacy

- ✓ PEG gallon prep from your pharmacy (prescription needed)
- ✓ Bisacodyl 5 mg tablets: you need 6
- ✓ If your prep is unflavored: a sugar-free yellow or green drink mix to flavor it

Before Your Prep Day

1. Tell the office about any big changes in your health before your procedure, including urgent care or emergency room visits and hospital stays. If we don't know about them, your procedure may be canceled.
2. 7 days before: stop phentermine and any recreational drugs (for example, cocaine).
3. 5 days before: stop aspirin 325 mg. Keep taking aspirin 81 mg.
4. If you take any other blood thinner, call the office for instructions.
5. For pain or a headache before your procedure, acetaminophen is fine.
6. 2 days before: stop cannabis (48 hours before your procedure).

The Day Before

1. Clear liquids only, all day. No solid food. Drink plenty of clear liquids so you stay hydrated.
2. If you have diabetes, take half your usual dose of diabetes medicine today and check your blood sugar during the day. If you take insulin, bring it to your appointment.
3. In the morning, mix the prep with 1 gallon of water and put it in the refrigerator.
4. **4:00 pm, first dose:** drink half the prep (½ gallon) and take 3 bisacodyl 5 mg tablets.
5. **6:00 pm:** take 3 more bisacodyl 5 mg tablets.
6. **10:00 pm, second dose:** drink the rest of the prep (½ gallon).
7. Nothing by mouth after midnight, including gum, hard candy or lozenges. No smoking, chewing tobacco, e-cigarettes or vaping.

The Day of Your Colonoscopy

1. Nothing to eat or drink. Eating or drinking anything may get your procedure canceled.
2. The only medicines you may take this morning are pain, anti-anxiety, seizure, heart or blood pressure medicines, with a sip of water. Hold all other medicines until after your procedure, unless the office tells you otherwise.
3. If you use a prescription inhaler, bring it with you.
4. Someone must come with you and drive you home, because you will be sedated. Plan for someone to stay with you the rest of the day, since you may be drowsy or dizzy.
5. Leave jewelry and valuables at home. We can't be responsible for them.
6. Your colonoscopy is at our Fuquay-Varina Endoscopy Center.
7. If you have a co-pay, please bring it.

Clear Liquids You Can Have

No milk or milk products (including non-dairy creamer), and nothing red, blue or purple.

- Water
- Soft drinks, including colas
- Coffee or tea, without milk, cream or creamer
- Sports drinks (green or yellow)
- Gelatin (green or yellow)
- Ice pops (green or yellow)
- Hard candy
- Chicken or beef broth or bouillon (no vegetables)
- Apple juice, white grape juice or other strained fruit juice

---

You must finish the whole prep. A completely clean colon lets Dr. Vernon see everything, including polyps.

Can't make it? Call at least 48 hours ahead to reschedule. There is a $75 fee for a no-show, or for canceling with less than 48 hours' notice.

Questions about your prep? Call Fuquay-Varina at (919) 577-0085 or Dunn at (910) 891-5808, Monday – Thursday, 8:30 am – 5:00 pm.
